

Reproduction Style Stuffed Horse

This doll is so much fun to make and so very easy.

Gather these supplies:

half yard fabric

black thread (facial features)

yarn

thread to match yarn color

stuffing

ribbon or string

Just cut out the pattern I have provided for you. You will need to make a small slit on the neck. Take both pieces of fabric and sew the entire horse closed. You will turn the horse and stuff the horse thru the small opening you have made. Once you have finished stuffing the horse you will need to sew the opening close with matching thread. Take a few pieces of yarn and sew them to the horses head. Then take some more yarn and sew to the horse rear. You can then stitch the facial features and hide the string in the yarn and knot close. tie a ribbon or string around the neck and you are done.

These make great baby gifts or ornie's for your decor and even your Christmas Tree.

Enjoy.
